

# GREEN PLANICA 2023

## GREEN PLANICA 2023 COMMITMENT

We, the visitors and athletes participating in the FIS Nordic World Ski Championships Planica 2023 event, commit to work together for a world championship which is based on the principles of sustainable development. Planica 2023 will contribute to maintaining a respectful balance between people and nature, and provide for social justice and intergenerational solidarity.

**MAKE A COMMITMENT AND SEE HOW WE CAN MAKE PLANICA 2023 GREEN TOGETHER.**

## SUSTAINABILITY GUIDE

Green Planica 2023 complies with the sustainability orientations and measures to reduce negative and increase positive effects in environmental, social and economic areas.

MEASURES

MOBILITY  
WASTE AND ENVIRONMENT  
FOOD AND DRINKS  
SOCIAL RESPONSIBILITY AND COMMUNICATION  
LEGACY OF THE EVENT

**GREEN PLANICA 2023**

## MOBILITY

- 1 We provide and use green forms of mobility for arrival to the FIS Nordic World Ski Championships Planica 2023 (public transport, group transportation, electric vehicles, footpaths, cross-country ski tracks, bicycle rentals).
- 2 If arriving to Planica by car, we can reduce emissions by reducing our average speed by 10 km/h.
- 3 Organisers provide and promote green forms of mobility by implementing a mobility plan.

**OBJECTIVE:** 10% of the visitors arrive to Planica by means of public transport or some other form of green transportation.

## WASTE & ENVIRONMENT

- 4 What we bring to Planica, we also take back home with us.
- 5 We properly dispose of all waste by carrying it to the area for separated waste collection ("green islands").
- 6 On footpaths, we follow marked trails, do not disturb animals, plants or their natural habitats.
- 7 We check our carbon footprint using the calculator and consider recommendations for its reduction.
- 8 Organisers measure the carbon footprint of the event, considering where it can be reduced and how to achieve a carbon offset.

**OBJECTIVE:** Green Planica 2023 is a waste-free event where all waste is separated and disposed of properly.

## SOCIAL RESPONSIBILITY and COMMUNICATION

- 14 Organisers present ECO Schools as role models to young and old visitors of Planica.
- 15 With our sustainable practices, we raise awareness and set an example, also through social networks.
- 16 Organisers provide clear communication about the Green Planica 2023 measures.
- 17 We respect the local community and volunteers, whose work has enabled the organisation of the FIS Nordic World Ski Championships Planica 2023.
- 18 Organisers will hold an expert consultation on the topic of sustainable development.

**OBJECTIVE: Keep Planica beautiful.**

## FOOD AND DRINKS

- 9 We use a deposit system for packaging and do not use single-use plastic (reusable cups for drinks, biodegradable cutlery, etc.).
- 10 Organisers provide food of local and plant origin (at least 40%).
- 11 We do not waste food and drinks.
- 12 We bring our own bottle and consume tap water.
- 13 We make sure that alcohol is consumed in moderate quantities.

**OBJECTIVE: 20% less food waste compared to similar sports events.**

## LEGACY

- 19 Organisers ensure a positive economic legacy and fair payment to all participants.
- 20 Organisers measure the multiplier effects of the event and prepare a sustainability guide for future sports events in Planica.

**OBJECTIVE: Make sports events in Slovenia sustainable.**
